See who attends

The energy, the people, the ideas that are flowing here are phenomenal. It is a great way for IBM to leverage this information to help us make smarter decisions.

Brian Cheng
Chief Technical Officer at IBM

I go to conferences all the time, all over the world - this one is unique! I love coming here where you meet people you don't meet anywhere else.

John Lunn
Global Director of PayPal Developer

It is an amazing Congress, it is an amazing audience you have here - incredibly large amount of people - very engaged. I am very excited to see opportunity for new businesses - to have a platform like this!

Nic Jones
Senior Vice President, International

It is so large and so incredible diverse that very, very few conferences around the world look and feel like this. Webit has captured something really, really special here in Istanbul.

Gary Liu
Global Director Ad Product Strategy at Spotify

Connecting people across different countries, different continents, different religions - taking down barriers and creating a great business environment.

Teppo Paavola
VP Global Business Development at PayPal

The number 103 is the most impressive thing about the Congress. There are so many different cultures, so many points of views, so many brilliant ideas, that this is the most successful part of the Congress. 103 countries - I will remember it forever. Webit Congress connects industries, countries and most of all people.

Andrey Sebrant
Director of Product Marketing at Yandex

I didn't know there is a conference of this size - a platform that a lot of people globally show up. We are a global company and understanding what is happening is so many different companies makes a lot of difference for us.

Ajit Sivadasan
VP/GM at Lenovo Corporation

I have seen this event grow over the past several years and this is definitely the best one yet. Very successful event! I think a 103 countries says its own story, isn't it? I have seen a very rich mixture of publishers, of advertisers, of people from agencies, technology people - it is a really great way of connecting the fabric of the online advertising industry.

Tom Bowman
Advertising at BBC

It is absolutely amazing how many people you have here - from all different ranges from different types of companies - I am definitely impressed with the size of it and that fact that Webit brings all categories of digital and tech in one place.

Manu Gupta
Partner at Lake Star

It is a truly a global initiative to make great high-level international connections. Reach brands, audiences, publishers with impact in spontaneous fashion.

Ben Barokas
General Manager, Marketplace at Google

Webit is a fantastic event! I have met here people that I never thought I can meet out of the 8000 people. A lot of new connections, a lot of new people from all over the world - all exchanging ideas - I think it is a great event.

Anthony Gallippi
Co-founder and CEO, BitPay

It is a great opportunity for everyone from all industries coming together, talking about our recent trends, challenges and opportunities. I think Webit is a key industry initiative to drive the conversation forward, share case studies, share successes and failures that helps us move forward.

Hussein Freijeh
Managing director of Yahoo Middle East, Africa and Turkey
