Egyptian Business Delegations Company Profile

About the company:

We EGYPTIAN CARBONATE Co. FOR MINING (ECCM), established in 1978 and now considered as one of the largest group of factories in Egypt producing **CALCIUM CARBONATE** (Natural & Coated) & **TALC POWDER** (Different Grades as per client requirement), ECCM production capacity is currently more than 15,000 MT / Month with the highest ALPINE (German) technology along with very advanced laboratory instruments to assure the quality.
As quality control is one of our main focus we use also the latest instruments to analyze the particles size by Sedi-graph 5120 and Malvern 3000). And for color control we use the data color Model 450.
