## 8<sup>TH</sup> INTERNATIONAL CONFERENCE FOR EUROPEAN ENERGYMANAGERS

29<sup>th</sup> | 30<sup>th</sup> November 2017, Ljubljana

04.10.2017 - subject to alterations

# Invitation

Following the successful conferences in Berlin (2016), Nuremberg (2009, 2013), Vienna (2010, 2014) and Prague (2011, 2015), we now want to invite you to the 8<sup>th</sup> international Conference for European EnergyManagers in Ljubljana.

As a participant of this event, you will benefit from the experience of the steadily growing pool of more than 5,000 members of the network of European EnergyManager.

Recent developments and best-practice solutions will be presented in 6 content-related workshops and fringe events will provide many opportunities of exchange to experiences.

A highlight of the event will be the EUREM Award ceremony. The award will honour corporate energy efficiency in the categories small- and medium-sized as well as large businesses.

All presentations and plenary speeches will be in English.

For further information visit:  
[www.energymanager.eu](http://www.energymanager.eu).

## Hotels

The EUREM 2017 will be held at the Ljubljana Exhibition and Convention Centre situated in the very centre of Ljubljana. The main railway and bus stations are in the walking distance from the conference venue. The Jože Pučnik Ljubljana international airport is located at 25 km from the city centre and can be reached within a 20-minute ride.

Ljubljana provides a good range of accommodation facilities of all categories and types, currently totaling to around 2,550 hotel rooms. Majority of accommodation alternatives are in the close vicinity of the Ljubljana Exhibition and Convention Centre. Please note that due to a lot of interest in this Conference and the fact that Ljubljana is a congress centre, it is hard to find accommodation at that period so we appeal to registered participants to make their room reservations as soon as possible.

More information (availability, independent review and price range) about places where to stay in Ljubljana during EUREM 2017 conference can be found on:
