

Medium Projects

Mining Industries (Building Materials)

Project Name: Sawing, Cutting, Polishing Marble & Granite Factory & Decoration works

Project Purpose: Production of:

- Polished marble tiles & boards of various thickness & kinds.
- Polished granite tiles & boards of various thickness & kinds.
- Decoration works & tables (Statues- chandeliers- lampshades).

Usage:

- Interior & exterior, floors & stairs cladding.
- Decorating facades & entrances of commercial stores, administrative buildings, banks & hotels).

Target Markets: Local and external markets

The Proposed Production Capacity as an Example:

- 100,000 m² of polished marble tiles & boards
- 75,000 m² of polished granite tiles & boards
- 10,000 pieces of decoration works made of natural marble.

Required Area : 15,000 m²

Approximate Investment Cost: US \$2 Million

Power Sources: Annual consumption of electricity: 2500 MWH
Annual consumption of water: 3500 m³ + a closed water circuit

Mining Industries (Building Materials)

Project Name: Gypsum Boards Production

Project Purpose: Production of gypsum boards to be used in hanging ceilings, gypsum walls.... etc

Target Markets: Local and external markets

The Proposed Production Capacity as an Example: 1 Million m² of gypsum boards

Required Area : 7000 m²

Approximate Investment Cost: US\$2,5 Million

Power Sources: Annual consumption of electricity: 1920 MWH
Annual consumption of water: 1 Million m³
Annual consumption of gas: 1 Million m³

Engineering Industries

Project Name: Manufacturing & Assembling Semi-Trucks

Project Purpose: Producing semi- trucks to fulfill the local market gap.
Uses: Carriage of goods

Target Markets: Local market

The Proposed Production Capacity as an Example: 300 / year

Required Area : 5000 m²

Approximate Investment Cost: US \$350,000

Power Sources: Annual consumption of electricity: 1000 KWH
Annual consumption of water: 1000 m³

Food Industries

Project Name: Tomato Paste, Fruit Concentrates, Tomato Sauce, Fruit Jam and Natural Fruit Juices

Project Purpose: Production of tomato paste, fruit concentrates, tomato sauce, fruit jam and natural fruit juices from fruit pulp.

Target Markets: Local and external markets

The Proposed Production Capacity as an Example: 80,000 tons / year

Required Area : 40,000 m²

Buildings Area: 24,000 m²

Approximate Investment Cost: US \$13 Million

Power Sources: Annual consumption of electricity: 12,000 MWH
Annual consumption of water: 250,000 m³
Annual consumption of gas : 2 Million m³
